Professional Summary
I am a full stack web developer currently pursuing a BE in Artificial Intelligence and Data Science at MET Institute of Engineering, currently in my second year. I have hands-on experience in developing dynamic web applications and games.

Projects

Portfolio Website
Present

- Developed a portfolio website with dynamic effects and smooth scrolling using the Locomotive JS Library.
- Implemented a cursor follower with physics effects.

Simon Says Game
Present

- Created a game where the machine selects a random color sequence for the player to follow.
- The game ends if the player fails to follow the sequence, with increasing difficulty levels.

Random Color Generator

Present

- Built a tool that generates a random color on button click.
- Displays the RGB color format for easy copying and usage.

Core Skills

- Languages: JavaScript, HTML, CSS, SQL, Python, C++
- Developer Tools: VS Code, GitHub
- Frameworks/Libraries: ReactJS, Redux, Next.JS, NodeJS, Express.JS, Git, MongoDB, React-Native, Tailwind CSS

Languages

- Marathi
- Hindi
- English

Certifications

- C++ (NPTEL)
- Python (INE)
